

VoiceWizLive™ 24/7 Receptionists

The perfect addition to your VoiceWiz™ automated phone system is VoiceWizLive™.

Stop losing deals because someone doesn't pick up the phone. With VoiceWizLive™ someone will always pick up the phone 24/7/365.

VoiceWizLive™ picks up the phone with the name of your company and begins asking questions right from your website in front of their eyes. They enter the data and you receive a text immediately, an email and even a fax if you want. But better yet the information they collect for you is already entered into your WebWiz™ website database.

Oh, and you have complete control over when the call goes to the live operator service. I suggest you use your VoiceWiz™ automated phone system telephone number on all your marketing. The people calling your automated phone number, hear recorded answers to their questions, get invited to visit your website and at any time they can press zero to speak to a live operator. Bingo! That's when the call can come to you, come to one of your staff people, or go directly to VoiceWizLive™. Your choice!

Automation and outsourcing are the basics of a successful business. Get started now...
